Pictured on the cover is Jordan Domingos from northern Mozambique. He is a student at the Evangelical Bible College of Malawi. As a great step towards ensuring their sustainability EBCoM has begun growing maize on a portion of their land. This reduced overheads significantly and in the 2026 harvest they were able to harvest 50 bags of maize which is used to provide meals for the students. Jordan, and his fellow students, volunteer taking turns shelling the maize/corn kernels from the cob.

In 2027 we are looking forward, God-willing and through your partnership, to seeing an irrigation project implemented which will enable a greater portion of the land to be used, providing more crops and reducing some of EBCoM's overheads.
