

Heaven

Heaven is where some people go when they die,
But nobody dies when they get there.
Heaven is more populated than earth,
But will never be as crowded.
Heaven has many different cultures,
But no prejudice or discrimination.
Heaven is full of riches,
But not all rich men get in.
Heaven has people who lived on earth thousands of years ago,
But nobody grows old there.
Heaven will always be there,
But no-one will ever get bored with it.
Heaven has many people who argued and fought on earth,
But they do not argue or fight in heaven.
Heaven has no rules,
But everyone knows what is right.
Heaven has people who spoke many different languages,
But there are no communication problems.
Heaven has plenty of food,
But never any greed.
Heaven has freedom,
But nobody runs away.
Heaven has many people who were handicapped on earth,
But no-one in heaven is disadvantaged in any way.
Death can be scary and no-one likes to think about it,
But thoughts of Heaven give us hope of greater things to come
